					<b><u>Building Analyses &amp; Dashboards using Oracle BI Enterprise Edition 11g Part 2</u></b> Venkatakrishnan Janakiraman, India Managing Director, Rittman Mead Consulting  Part 2 of the mid morning session

<b>12:15</b>	<b>1:15pm</b>	<b>Lunch Break</b>	<b>Lunch Break</b>
<b>1:15</b>	<b>2:00pm</b>	<p><b><u>L&amp;T Infotech Limited</u></b>  Rana Beteille, L&amp;T Infotech Limited</p> <p>Tools based Accelerated Upgrade- We at L&amp;T Infotech analyse the options available to Oracle JD Edwards ERP customers for up grading to newer ERP versions along with the challenges faced by such customers and how innovative tools, accelerators, templates and methodology coupled with the onsite offshore model can significantly reduce the overall project cost and time. Upgrades bring significant challenges pertaining to managing project expenses and controlling project scope but we at L&amp;T Infotech have the answers to all the questions that one may have on ERP upgrades. The innovative tools, Accelerators, templates &amp; methodology developed by L&amp;T Infotech coupled with onsite-offshore model helps in reducing Total Project Time by 15-25% and overall project cost by 20-30% depending on the level of customizations in the existing ERP system</p>	<p><b><u>What is OBIEE and What's New in OBIEE 11g Part 1</u></b>  Edward Roske, interRel Consulting, LLP</p> <p>Oracle's direction for reporting and analytics is not Hyperion Interactive Reporting, Hyperion Web Analysis, or even Hyperion SQR Production Reporting. It's OBIEE or Oracle Business Intelligence Enterprise Edition to those who like more syllables. In this session, you'll get an overview of the entire OBIEE suite and all its capabilities. You'll learn how OBIEE puts a presentation layer on top of your source data to make data access easy for all your users. Even if you've seen OBIEE in the past, you won't want to miss this session, because we'll be filling in all the gaps on what's changed recently and what you may have missed in the past. This session will also include a discussion on why OBIEE 11g is the most significant release of the Oracle BI products since Oracle first acquired the various products that make up the OBIEE suite. If you want to hear about all the earth-shattering new features of OBIEE 11G join us as we show how it has expanded the ability to report data, trends, KPI's and far more than we can possibly list in one abstract.</p>
<b>2:00</b>	<b>2:45pm</b>	<p><b><u>Quest Asia - The Global JD Edwards User Group</u></b>  Daniel Strassberg, President, Quest Asia</p> <p>Working in the fastest growing, market leading, most diverse economies of the world, Asia Pacific and being part of a multinational organization a one fit model does not always tick every box and fulfill every need. As senior managers what do we do to solve these problems of localization, languages and even culture barriers? Who, what and where do we go to solve these</p>	<p><b><u>What is OBIEE and What's New in OBIEE 11g Part 2</u></b>  Edward Roske, interRel Consulting, LLP</p> <p>Part 2 of the afternoon session</p>
<b>2:45</b>	<b>3:15pm</b>	<b>Afternoon Tea Break</b>	<b>Afternoon Tea Break</b>
<b>3:15</b>	<b>4:00pm</b>	<p><b><u>Topic to hot to print</u></b></p> <p>Surprise presentation</p> <p>Topic coming soon</p>	<p><b><u>Integrating Hyperion, Oracle Essbase &amp; OBIEE: The Future of Oracle EPM &amp; BI Part 1</u></b>  Edward Roske, interRel Consulting, LLP</p> <p>While Essbase and the Oracle Business Intelligence server are powerful apart, they are even more powerful together. In this session, Essbase users will learn what is OBIEE (Oracle Business Intelligence Enterprise Edition). OBIEE users will learn the value of Essbase. We'll then cover how to use the two product areas together to have amazingly fast reporting and analysis while having one common presentation and semantic layer. This is intended to be an introductory session to get all the OBIEE and Essbase users up to a common level of</p>
<b>4:00</b>	<b>4:45pm</b>	<p><b><u>L&amp;T Infotech Limited</u></b>  Srinivasan Satya, Oracle Practice, L&amp;T Infotech Limited</p> <p>Presentation by a Customer – The Upgrade story as experienced by an End User organizations. It would cover the pains that they had to go through and the risks and mitigation plans that were put in place. The Do' and Dont's in an upgrade project. The user community would get a good idea of what needs to be taken care of as told by a customer</p>	<p><b><u>Integrating Hyperion, Oracle Essbase &amp; OBIEE: The Future of Oracle EPM &amp; BI Part 2</u></b>  Edward Roske, interRel Consulting, LLP</p> <p>Part 2 of the afternoon session</p>
